II CAREER OBJECTIVE

To obtain the job of Interactive JavaScript Developer where profound experience and passion for building interactive experiences and solving problems before they occur; advanced knowledge of Object-Oriented JavaScript, several template engines, modern JS libraries, Express, CSS & SCSS, semantic HTML, Node.js, ES 6, and Responsive tactics, will be put to maximum use.

II EXPERIENCES

Mitigation Estimator

Frontier Services Group (2017-current)

I am currently a mitigation estimator for a large disaster restoration company. I perform initial inspections of damaged property, assess restoration needed, and write complete and accurate estimates. I meet with property owners, property managers, insurance adjusters, public adjusters, and building officials to determine scopes of work and appropriate documentation specs for all projects.

- Acting as a first responder to losses including fire, water, mold, and hurricanes including Harvey, Laura, and more.
- Sketching accurate floor plans and creating estimates using Xactimate software and forward to all interested parties.

Digital Marketing Administrator

Frontier Services Group (2015-2017)

Successfully increased organic revenue by 80% for Frontier Services Group year over year. I am especially seasoned in disaster restoration digital marketing strategies and brand building. The bulk of my responsibilities here included designing, developing, and maintaining Frontiers website as well as create quality SEO enriched web content.

- Tripled website traffic in year 1, doubled in year 2.
- Optimize long-tail and short-tail keyword use and effectiveness.
- Worked in tandem with the sales to insure continuity and consistency between our websites strategy and their strategy.

Mitigation Technician

Frontier Services Group (2014-2015)

Water, fire and smoke damage technician specializing in home and commercial building restoration. I was very Dependable and hard-working which is why I moved up within the company through out the years. I loved to work in a faced paced environment and always worked to complete projects quickly and efficiently.

- Performed demolition and cleanup on commercial and residential jobs.
- Worked closely with project managers and estimators to provide accurate documentation for insurance and billing purposes.
- Worked within IICRC guidelines on a daily basis with a thorough understanding how to properly mitigate the property.
